

Orchard Management.

The Maine Board of Agriculture appears to be making wide-awake looks. At a recent meeting, among other practical notes the following facts and suggestions about orchard management were elicited:

In some discussions upon fruit and orchards, it was stated that the crop of apples was very light, not enough to pay for the cost of raising them. The price of apples was \$3 per barrel, but the cost of raising them was \$4.50 per barrel. The reason for this was the smallness of the crop. The price of apples was \$3 per barrel, but the cost of raising them was \$4.50 per barrel. The reason for this was the smallness of the crop.

The beer will not trouble the man who carefully inspects his trees in the spring. The beer will not trouble the man who carefully inspects his trees in the spring. The beer will not trouble the man who carefully inspects his trees in the spring.

On principle, we let slip no opportunity of having a fling at the dog nuisance. The toleration of unclean and mischievous dogs is one of the heaviest of taxes on the productive industry of civilized countries.

While writing I feel just my method for protecting sheep against dogs. I have kept a flock of sheep for several years, varying from 100 to over 2,000 head, and for the last eight years have not lost a sheep killed by dogs. I keep my sheep yarded and occasionally, varying from once in two weeks to once a month, I go out at the pen time and place around the outside of the pen a line of cotton containing strychnine, which I take up again in the morning if not eaten during the day.

Substitutes for Hay.

The London (Eng.) Agricultural Gazette has these suggestive hints on the above subject in a recent number: "It is a substitute for good hay and I think the idea that stock should be kept without hay will soon pass by. I should give 5 cwt. of straw chaff (say 5 shillings), 10 cwt. of pulped mangels (say 5 shillings), 1 cwt. of mixed crushed corn (say 5 shillings), and 1 cwt. of mixed crushed corn (say 5 shillings)."

The School of Chubbey.—So long as milk cows are kept during the winter out doors and fed on straw and hay, we shall have neither a good breed of cows, nor for humanity and civilization go together. Where cows are fed a quart or so of cream, which is poured over the straw and milk into a pail cup, as is the case in this hall of the United States, the cows are poor, a large part of the people cannot read, and speak and go to travel around at night and in the day time. Where cows are fed in comfortable stables and are so well fed that their eyes bugle out, there are good schools, the family has plenty of bed clothes, there are apples in the cellar, and the changes are read to history almost as well as novels. In such places the girls are not likely to marry brackens, nor the boys distillers.—*Monitor* in N. Y. Tribune.

HERBESSE REQUISITE AS THEY TAKE THEIR PLANT.—If you have a good head of hair, take care of it. It is one of the most valuable of the body, and more so when it is in its prime. The hair is the life of the body, and more so when it is in its prime. The hair is the life of the body, and more so when it is in its prime.

Use of any longer taking the large, vulgar, grating, and unwholesome, composed of crude and bulky ingredients, put up in cheap wood or pasteboard boxes, when we can, by a simple application of chemical science, extract all the catarrhic and other medicinal properties contained in the valuable roots and herbs, and concentrate them into a minute granule, which is far larger than a mustard seed, that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes.

Write the address on orders to the NEW YORK HERALD in a bold and legible hand and give the name of the County and State so plainly that no errors in mailing papers will be liable to occur.

THE SUN.

1876. NEW YORK. 1876.

NIGHTEEN hundred and seventy-six is the Centennial year. It is a great year in which an Opposition House of Representatives, the first since the war, will be in power at Washington, and the year of the twenty-third election of a President of the United States.

All of these things are so near to us that of great interest and importance, especially the two latter; and all of them and everything connected with them will be read and fully reported and expounded in THE SUN.

The Opposition House of Representatives, taking up the line of independent years ago by THE SUN, will steadily and diligently investigate the administration of the President and the administration of the President, and will, it is to be hoped, lay the foundation for a new and better period in our national history. Of all the papers in the country, THE SUN is the only one that is so completely and accurately informed, and so fully and so truthfully and so interestingly informed upon these subjects.

The twenty-third Presidential election, with the preparations for it, will be memorable as deciding upon GRANT'S aspirations for a third term of power and plunder, and still more as deciding who shall be the candidate of the party of Reform and as electing that candidate. Concerning all these subjects, those who read THE SUN will have the constant source of being thoroughly well informed.

THE WEEKLY SUN, which has attained a circulation of over one thousand copies already has its readers in every State and Territory, and we are prepared to furnish to our readers a complete and accurate copy of the paper, and we are highly concentrated by a comparatively small quantity only be used.

ALBION HOTEL.

MCGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

Has for twenty years past been the favorite resort of the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure.

It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. One of the largest hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the charges will be moderate. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

WISLAR'S BALSAM

OF
WILD CHERRY

THE GREAT REMEDY FOR
CONSUMPTION

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wislar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

"DAILY INTELLIGENCER."—Printed and published by the INTELLIGENCER PRINTING AND PUBLISHING COMPANY, at their Offices, corner of Front and Market Streets, Belleville, W. A. SHEPARD, Manager.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. The left edge of the page shows the binding of the book, and the overall tone is a warm, off-white or light beige.

est, most inefficient tool in the world, said Oh by the way, Miss Ellis, let me present my friend Mr. Seymour.

This was said.

John's face beamed like fire; he muttered something about "being happy to meet Miss Ellis's acquaintance," looking all the time as if he would be glad to meet any one who took any notice of him, and to get out of the place.

Miss Ellis was a belle by profession, and she understood her business perfectly. "In no way did she show her knowledge of the craft, more than in the address with which she could smooth the bashful pains of a novice, and she did so in every thing with a grace and ease that was a real thing.

"Mr. Seymour," she said softly, "to tell the truth, I have been desirous of the honor of your acquaintance ever since I saw you in the breakfast room the other day."

"I am sure I am very much flattered," said John, but he was not at all content with this.

"May I ask why you honor me with such a wish?"

"Well, to tell the truth, because you strikingly resemble a very dear friend of mine," said Miss Ellis, "and I have a great deal of sympathy for you."

"I am still more flattered," said John, with a quiver of the heart; "only I fear that you may find me an unpleasant companion."

"Oh, I think not," said Ellis, with an air of confidence; "we shall soon get acquainted, I trust."

"I trust so certainly," said John earnestly.

Belle Trevors now joined the party; and the four were soon chatting together on the best of terms, and John was delighted to find himself already on easy terms with Miss Ellis.

"You have not been long," said John to Miss Ellis.

"No, I have just arrived," said Ellis.

"I am an old friend here," said John, "and I am sure you will find me a very pleasant companion."

"Then," said John, "I hope you will take me under your tuition."

"Certainly, free of charge," she said, with another smiling look.

"You have not seen the boiling spring yet," she said.

"No, I haven't seen any thing yet," said John.

"Well, then, if you will, let me take you across the lawn, I'll show it to you."

All this was done in the easiest, most natural manner; and John was so much pleased that he started, John in a flutter of flattered delight at the gracious acceptance accorded to him.

Belle and John looked at each other, and then, with a look of intelligence at each other, they started, John in a flutter of flattered delight at the gracious acceptance accorded to him.

"Well, it'll be a good thing for her," said John.

"For her? Oh, yes, a capital thing for her," said John.

"Well, for her? Oh, yes, a capital thing for her," said John.

"Well, for her? Oh, yes, a capital thing for her," said John.

"Well, for her? Oh, yes, a capital thing for her," said John.

For Cleveland, daily, at 8 a.m., and 2 p.m.
The stages arrive in Belleville about
each day.

Daily Intelligence.

WEDNESDAY, JANUARY 12, 1876.

Town and Vicinity.

POLICE COURT.—No cases for decision
and prisoners for trial this morning.

1,000 Overcoats, all shades and styles,
are being retailed at half price at Walsh's
Commercial House. 196-17.

FISHING.—The Bay fishermen have been
doing very well of late. Bait-fishing has
been profitable, and seining has also been
very successful.

ORANGE.—In report of officers of Bel-
leville Lodge No. 81, I. O. O. F., the follow-
ing Trustees were mentioned: Thomas Williams,
W. H. Campbell, John Tompkins.

RECEIPT OF SELLING good goods at low
prices. The great rush of customers to
Walsh's Commercial House, Front Street,
Belleville, is proof of the unusual good value
offering to the public. 196-17.

A CLEAN BILL.—There were no arrests
made in town during the past twenty-four
hours, and no lodgers put in the night at
the Station House, consequently the cells
were empty for once.

TORONTO WITNESS.—The first number of
this new paper for public favor has reached
us. It is a small eight-page weekly,
neatly printed. The *Witness* is devoted to
Temperance and Religion, and is published
in Toronto at \$1 per annum.

GO TO WALSH'S Commercial House for
Hosiery, Flannels, Wingings, Clouds,
Shawls, Furs and Woolen goods of all
descriptions, all being sold at the low
prices of low prices. 196-17.

"EARNEST CHRISTIANITY."—The January
number of this 64 page monthly maga-
zine has been received. As its name sug-
gests, it is religious in its aims, and seems
to be ably conducted. Published in Toronto
at \$1.50 per annum.

OSTER SUPPER.—At the invitation of
M. Sawyer, Esq., the retiring Chairman
of the Board of Education, the members of
the Board, and the reporters of the press,
an oyster supper at Mrs. Vandervoort's last
night. There was no speech making, that
necessary part of the programme having
been previously performed at the meeting
of the Board, but the supper was most
enjoyable on that account. The company
separated at about 10:30, after a
pleasant hour's social enjoyment.

YESTERDAY, on visiting the Commercial
House, we were astonished to see the im-
mense number of persons buying Dry Goods,
Clothing and Furs, but on examining the
prices they are retaining the goods for our
welfare. 196-17.

"CLOTHING AND HATS."—We have re-
ceived the latest number issued of the above
handsome periodical, devoted to the inter-
est of the clothing, hat and fur trades. It
contains a large amount of information
which is of value to dealers, and will pro-
ve of service to gentlemen who wish to
keep posted in the styles, which, besides
being fully described in the columns of this
periodical, are neatly illustrated. Publish-
ed monthly at New York (P. O. box 3,
37-2) at 25 cents per annum.

A NEWSPAPER MAN ROBBED.—The
Ottawa *Frederick* of Monday night, Mr.
H. O'Sullivan, commercial agent of the
Ottawa Times, was robbed of a coat and
vest yesterday, which were taken from his
room in the Hamilton House while he was
absent. The garments were new and cost
\$40. Mr. Sullivan took \$90 out of his pocket
just before he left the room. "What a Crook
amongst newspaper men this Mr. Sullivan
must be! He is a Forty dollar worth of
new clothes and a new coat and vest. He
ought to be sent to the Central Prison as a
curiosity.

THE SMALL POX.—This terrible dis-
ease, which in 1874-1875, in one year,
eight hundred cases having been treated in
this city—so the Journal states—since
March last, and many deaths having occur-
red. The disease has extended to the
neighborhood, where nineteen cases were reported
Friday last. It behooves the Canadian
authorities to exert themselves to prevent
the spread of this loathsome and fatal dis-
easer to our frontier towns, of which there is
danger, some good appearing to be in as-
sistance in winter as in summer.

HARD TIMES.—Parties visiting Walsh's
Commercial House would not think the
times were hard so the fearful quantity
of Blankets, Flannels, Furs, Clothing, &c.,
they are selling. No wonder the
people buy at they are getting the
goods for less than they cost Wholesale.
196-17.

OWEN'S FRIENDS.—Many of our readers
are taking a friendly interest in the
Owen No. 7 and Eagle Hook and Ladder
Company No. 2, of Owen, we find below
the result of their recent election of officers,
from which it will be seen several of
the old members are still "in the fore"
in official positions: DeWolf How No. 7.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and faint smudges. A small, dark, triangular mark is visible near the bottom right corner, possibly a tear or a piece of tape. The page is set against a dark background.

Belleville Intelligencer

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

BELLEVILLE, ONTARIO, TUESDAY, JANUARY 18, 1876.

DAILY INTELLIGENCER

Published at five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of \$3.00 a year if paid in advance, \$2.00 otherwise. The price to mail subscribers has been changed to \$3.00 a year, the old price \$2.00 for six months, \$1.25 for three months.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., and in short-hand notes same are expected to be made to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.
A liberal scale of prices for advertisements as here arranged as follows:
Cards, six lines or under, 6 months, \$5.00
Each subsequent insertion, 12.00
One square, 6 months, 20.00
Do 12 20.00
Two squares, 6 months, 30.00
Do 12 30.00
Three squares, 6 months, 40.00
Do 12 40.00
Four squares, 6 months, 50.00
Do 12 50.00
Notions of Brevity, 50.00
Do of Marriage, 50.00
Do of Death, 50.00

Special announcements can be made in the local columns of the Daily, in the same type as local items, at five cents a line. Advertisers, contracting for any space not less than half a column, will be provided with changing their advertisements every two weeks.

Transient advertisements inserted at 8 cts. per line for first insertion, and two cents for each additional insertion.

THE "WEEKLY INTELLIGENCER."
Published every Friday morning at \$1.50 per annum if paid in advance. If not paid at the time of publication, \$2.00 will invariably be charged.

RATES OF ADVERTISING.
Six lines and under, first insertion, 10 cts. Each subsequent insertion, 5 cts. 12 cts. Above six lines (per line), first insertion, 10 cts. Each subsequent insertion, per line, 5 cts. A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 10 o'clock on Thursday, to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

ESTABLISHED 1866.
AND NOTED FOR
EIGHT SPECIAL ADVANTAGES.

"This popular Institution possesses unrivalled facilities for preparing young men for business pursuits. It has the finest staff of civil, military and naval officers, and the most thorough course of training in Canada."

"A Complete Pictorial History of the Times."—The best, cheapest, and most successful Family Paper in the Union.

Harper's Weekly.

ILLUSTRATED.

NOTES OF THE PRESS.

Harper's Weekly is the oldest and most powerful illustrated periodical published in this country. Its illustrations are carefully and conscientiously made, and carry much weight. Its illustrations of current events are full, complete, and agreeable to our best designers. With a circulation of 100,000, the Weekly is read by at least half a million persons, and its influence as an organ of opinion is simply tremendous. The Weekly maintains a positive position, and expresses the views of the public on political and social problems. —*London, Couriers Journal.*

Its articles are models of high-toned discussion, and its editorial comments are often of a revolutionary character of no small force. —*N. Y. Herald.*

On papers on extent questions and its inimitable cartoons help to mould the sentiments of the country. —*Pittsburgh Courier.*

Harper's Weekly stands at the head of illustrated literature in the United States, in editorial ability, and pictorial illustrations. —*London Repository, Cincinnati.*

TERMS:
Postage free to all Subscribers in Canada.

MISS LILLIE ELLIS was sitting up stairs in her virgin home, when a knock came, and a maid entered, saying that a gentleman was waiting to see her.

She started, and, looking at her watch, saw that it was half past twelve. She opened the door, and a young man entered, saying that he was a friend of her father's.

She looked at him, and saw that he was a handsome young man, with dark hair and blue eyes. She felt a little nervous, but she tried to be polite.

He sat down on a chair, and she stood by the door, waiting for him to speak. He looked at her for a moment, and then he said:

"I am very glad to see you, Miss Ellis. I have heard so much about you from your father."

She smiled, and said: "I am glad to hear that. How is your father?"

"He is well, thank you. He is very busy, but he is well."

"I am glad to hear that. I hope you are well, too."

Daily Intelligence
TUESDAY, JANUARY 18, 1876.

LUMBER NOTES.

Albany has a smaller stock of lumber on hand than it has had in wintered there for years—seventy millions.

Chicago did the same amount of business in 1875, and wintered about the same stocks, as in 1874.

Buffalo has only a moderate stock, and holders of lumber are firm, expecting an advance before spring opens.

New York is well supplied.

We learn from the *Northern* *Advertiser* and the *Lumberman* that a great number of logs have been cut in Michigan and Wisconsin—more than in 1875—there is not snow enough to draw them, so that the shanties are at a stand still. All through the Saginaw and the Lake Superior regions the loggers have been discharged. If there is low water next spring there will be a great shortage in Western lumber.

The Ottawa *Advertiser* congratulates the members of the Ottawa Valley at the improved prospects of the trade. It says: "Fortunately for the trade the judicious action of the board in the winter has been to the advantage of the lumbermen to curtail their operations, and the gloomy prospects that prevailed until the past few weeks acted as a check in the woods, until it is now too late for those who wish to take advantage of the winter trade. The market is now open and again overstocked. The consequence is, this winter's start, with the old log held over, will not make up quite the old log cutting capacity. The consequence of the advance price for the calculation of our shrewdest lumbermen. In addition to this shortage, there is a probability that unless there comes very heavy rains in the spring a great deal of lumber and logs cut this winter will be stuck in consequence of the low water. There is barely enough snow in the woods at present to make the roads good for long drawing."

COTTON MILLS BURNED.—A cable telegram from London on the 18th inst., says: "Dilworth & Sons' cotton mills at Manchester have been destroyed by fire. Loss estimated at £200,000. Lumsley & Simpson's cotton mill at Oldham, Lancashire, was also damaged. £200,000 and 200 operatives are thrown out of employment."

ROBERTS ON WALK.—In the gigantic preparations for the coming year, the Great Powers consider necessary for their security, the number of horses available for immediate service is an important matter. A horse census taken in the German Empire shows a total of 2,800,000, down from three million horses. The number of horses in Prussia, 1,087,488. There were also 98,286 adult or light draught horses of civilians, which would be available by compulsory sale.

MOCK ELECTION.—The result of Mr. Edgar's appeal against Mr. McCallum's election has been to confirm that gentleman in his seat by the addition of one vote. The result of the appeal was a tie, 100 to 100. The result of the appeal was a tie, 100 to 100. The result of the appeal was a tie, 100 to 100.

ONTARIO LEGISLATURE.

FIRST SESSION—THIRD PARLIAMENT.

Monday, Jan. 17.
Mr. Crooks introduced the Government bill respecting the reorganization of the Education Department, and proposed to amend the Education Act, and to provide for the reorganization of the Education Department, and to provide for the reorganization of the Education Department.

A number of private bills having been introduced, the House adjourned. Mr. Hodgins moved the second reading of the bill to amend the Administration of Justice Act, and to provide for the reorganization of the Education Department, and to provide for the reorganization of the Education Department.

Mr. Macdonald (Simco) was in favor of the bill, and thought it was a good bill. He thought it was a good bill. He thought it was a good bill. He thought it was a good bill. He thought it was a good bill.

Daily Intelligencer.

WEDNESDAY, JANUARY 19, 1876.

Town and Vicinity.

BOARD OF EDUCATION.—The Board met last night and organized for 1876 by appointing its Chairman, and striking the Standing Committee. Several business were transacted and the Board adjourned for one week.

TRENTON RACES.—These annual races were announced to take place on the 19th of January to-day and to-morrow. It has been so very unfavorable that it is doubtful whether the races can be brought off successfully.

TRUST SOCIETY.—The annual meeting of the Belleville Branch of the U. C. R. Book and Tract Society will be held this evening in the Bridge Street Church at 7:30. Rev. Mr. Eastman, Agent of the Society, and others will address the meeting.

GRAND JUNCTION RAILWAY CO., BY RAILROAD.—The following report was received at this office in Toronto yesterday: Decree by court. Mr. Bell, one of plaintiff Mr. Hector Cameron, J. J. Bell, J. Bell and Mr. Crombie for defendants.

FIRE APPARATUS.—There are invited for the drawing of the Fire Engines and the Hook and Ladder wagon to fire, which tenders will be received by Mr. Fisher, Chairman of the Fire, Water and Gas Committee, until February 1st. Particulars may be obtained from the Town Clerk.

ANNOUNCEMENT.—Owing to the increased difficulty of the times and the urgent necessity of reducing their present stock, Messrs. G. C. Holton & Co., offer their entire stock of the most fashionable dry goods at prices much lower than the market in many cases much below the original cost. Persons wishing to buy very cheap goods will consult their own interest by giving them an early call.

ACCIDENT.—Mr. Benjamin Gilbert, of Sidney, was seriously injured by a spirited team of horses a few days ago. He was engaged in drawing in pigs, when the horses ran away, upsetting their load and throwing Mr. Gilbert on the hard frozen ground, injuring his side and back. We are glad to notice, however, that Mr. Gilbert, though still lame from the effects of his accident, is able to visit town again.

PROSECUTION.—During last night, the 18th inst., the store of Mr. Ralph Peck, who was merchant, was entered by burglars and some ten or twelve followers, a quantity of pocket cutters, and a small amount of money in the till stolen, the value of the stolen articles amounting to about \$100. Entrance to the store was effected by a rear window, where a pane of glass was broken, and the fastenings unfastened. There is some suspicion as to the identity of the thieves, who it is to be hoped will be captured and their plunder recovered.

LOCAL LASSIE.—Diamond v. Coleman—lost at last Assizes by Mr. Justice Galt—was action brought for divorce and custody of child. Plaintiff pleaded that he had deserted wife. Defendant pleaded that he had deserted wife at Redick's factory for 20 years and upwards, and had thereby acquired a prescriptive right, by twenty years use, to divert the water at that place. As the case was of great importance to the parties, the learned Judge directed that the sitting of the term court in Toronto. After hearing the arguments of Mr. Diamond for plaintiff and (Cris and Bethune, Q. C., for the defendant, the learned Judge found a verdict for the defendant, Coleman.

NEW FIRE COMPANY.—As was stated by the Mayor in his remarks to the Council on Monday, our Fire Department is now in first-class condition. An additional Company is, however, to be organized in Murray Ward to work the hand engine, which is stationed in that Ward. A meeting for the formation of the new Company is to be held in the engine house, corner of James and Water Streets, on Friday evening. With the addition of another Company to the five now in existence will consist of six Companies, namely, two Hose Companies, three Engine Companies and one Hook and Ladder Company. The apparatus consists of two steam and one hand fire engines, two chemical engines, two hook and ladders. Very few towns in the Dominion have a fire Brigade equal to that of Belleville.

NEW R. C. CHURCH, MARMORA.—This church, which was dedicated on Tuesday last by Bishop O'Brien, of Kingston, is said to be a very handsome edifice. Rev. Mr. Davis, who is the pastoral charge of the church, is unremitting in his efforts to secure the erection of a Church at Marmora, and after considerable exertions secured his efforts. The new Church is 82 feet in length by 40 feet in width, its walls are 22 feet in height, with steeple rising 24 feet above the roof. It is of frame veneered with brick, with stone front and basement. Mr. Duffus, of Lindsay, was the architect; Johnston Bros., of Belle-

ville, were the masons, and Mr. James McNeil, of Marmora, superintended. The total cost of the edifice will be about \$65,000, and it possesses seating capacity for about 600 persons.

A WANT.—The following remarks of the St. Catharines Journal are quite as applicable to Belleville as they are to St. Catharines, which they were written: "The town stands very much in need of a gymnasium for the recreation of youth and manhood, and development of manhood. It would be useless, of course, to establish such a place without the assistance of some person conversant with the proper course of training, because as much harm may be done by violent and ill-directed exertions as good will result from a scientific course of training. There are various devices made for this purpose, including machines for strengthening the wrist, the chest, and in short to bring into play every muscle of the body, and to induce every species of athletic exercises. We believe that our public schools ought to have a department specially provided for the purpose, and that in the Union School. The body needs education by development as much as the mind, for the growth of the former by hearty exertion prepares the mind for a better and 'quicker' perception."

West Hastings Agricultural Society.

The annual meeting of the above Society was held in the Town Hall, on Monday, 12th inst., at 8 o'clock, p.m., for the reception of the annual report, and the election of Officers and Directors.

The annual report was read by the President, Mr. M. Howell, M. P., as follows:

TO THE MEMBERS OF THE WEST HASTINGS AGRICULTURAL SOCIETY.
GENTLEMEN,—The Directors in presenting their report for the year 1875, have considered the difficulties which they had to encounter, and to compensate the Society for the success which attended their operations.

The membership is nearly as large as in former years, and the receipts are in a proportionately favorable way, but the expenses in comparison of the last year, are not as large as were collected last year, owing to two important facts:

First, the fact that the Ontario Dairyman's Association held their Annual Show at the same time and in conjunction with the West Hastings Agricultural Fair, in 1875, caused a much larger attendance than would otherwise have been the case, and the receipts were not presented to the public in 1875.

Second, the fact of the storm which fell on the first day of the show rendered it impossible for the people to attend, and the receipts were not presented to the public in 1875. The result was that the receipts were not presented to the public in 1875.

It was a matter of great regret to your Directors, that instead of being enabled this year to increase the number of prizes, and the amount of Prizes offered, they were compelled to reduce both number and amount, owing to the reduction of their receipts by the formation and establishment of the Ontario Dairyman's Association.

The result was that the receipts were not presented to the public in 1875. The result was that the receipts were not presented to the public in 1875.

MORNING DESPATCHES.

AMERICAN.

A DEFAULTER.

Plymouth Church Council.

STRIKES ENDED.

COMPROMISING A PROSECUTION.

TREKKA, KS., Jan. 18.—Ex-Secretary of the Lumbermen's Association, charged with complicity in the recently discovered school land swindle, was arrested again yesterday as he was leaving for Chicago, it being known he was going to flee the country in default of \$15,000 bail. He was committed to jail.

NEW YORK, Jan. 18.—A member of the Plymouth Church Advisory Council stated that there will be no hundred churches from all parts of the country represented, and that the council will convene in the early part of February, and it is to be in the hands of a representative body. A number of clergymen who are not connected with any church are to be invited.

BOSTON, Jan. 18.—The strikes among Lynn shoemakers are ended, and the men are all at work, having secured from the manufacturers the wages they demanded.

ST. LOUIS, Jan. 18.—The case of Arthur Gauthier, ex-U. S. Revenue agent, indicted for obtaining from F. W. Schroeder, cigar manufacturer, \$1,000 as a consideration, for procuring a prosecution pending against Schroeder in 73, for violation of the revenue law, was taken up in the United States Court yesterday. The jury found Gauthier guilty, and the court returned decision.

AFTERNOON DISPATCHES.

THE TURKISH TROUBLE.

Rate of Discount.

SPANISH AFFAIRS.

U. S. Steamer Ashore.

FIRE ON A RAILROAD.

THE KANSAS FRUITS.

MONTREAL MARKET.

LONDON, Jan. 18.—The Daily Telegraph's Berlin special says that disturbances have occurred in the neighborhood of Samarra; the insurgents are advancing toward Khaykhani. It has been generally supposed during the week that the bank rate of discount would be reduced. To-day, however, the Bank of England's impression prevails that any reduction from the present rate of 3 per cent. is impossible.

The *Times* this morning, in its financial article, says that the reduction of the rate of discount at the Bank of England, and there is but little doing out side. All suitable gold arriving in the country is taken for export, and there is little probability of any export of gold going into the Bank, as all foreign exchange are adverse and high in demand.

BERLIN, Jan. 18.—The minimum rate of discount at the Bank has been fixed at 5 per cent.

The Federal Council is authorized to purchase Kell's Garden, in this city, as the site of the new Imperial Parliament Buildings.

MUNICH, Jan. 18.—The following is official: The Carlist leader, Gristay, yesterday notified the Spanish council at Bayona, France, of his unreserved submission to King Alfonso.

Gen. Martinez Campos' army is concentrated in the neighborhood of Pampluna. Five hundred and fifteen packages will be shipped from Cadix on the 31st inst., for the use of the Spanish army at Pampluna.

PORTSMOUTH, N. H., Jan. 19.—The U. S. steamer *Mermaid* dragged the buoy which was moored, and went ashore on Pumpkin Island this morning. The buoy was broken, and the tide falling, it is feared her stern post is started.

NEW YORK, Jan. 19.—A fire at Camasie, Long Island, this morning, destroyed a large number of passenger cars, and a large engine, and a hotel. Total loss, \$400,000.

ST. LOUIS, Jan. 19.—A despatch from Topeka, Kas., says detectives have discovered that ex-Secretary of the Treasury and Secretary of the Bell Boys at the Pacific House in St. Joseph, Mo., to sign the name of Miller and other persons to forged bonds, and also discovered that they were prepared to turn over any amount of fraudulent stock money. Lafin's surrender in the previous suit will render him to-morrow.

WASHINGTON, Jan. 19.—Prohibition—For the Middle States, areas of light rain, followed by clearing colder weather, north-west to south-west winds, and rising barometer.

NEW YORK, Jan. 19.—Arrived, the steamship *Prussia* from Liverpool.

A Pittsburgh firm has commenced the manufacture, under letters patent, of glass journal boxes, designed to supplant the brass boxes now used. The advantages claimed are cheapness and prevention of fire from heating.

Police Court.

(Before A. Diamond, Esq., J. M.)

WEDNESDAY, JAN. 19, 1876.

The only case before the Court was that of Cummins v. Sarafeld, in which, owing to the unrequited circumstances, the Magistrate was asked to give a decision, and he accordingly dismissed the case.

Daily Intelligence

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

BELLEVILLE, ONTARIO, FRIDAY, JANUARY 21, 1876.

VOL. 9.

NO. 214.

DAILY INTELLIGENCER

It is published at five o'clock every morning (Sunday's excepted), and will be furnished by carriers at the rate of one cent per copy if paid in advance, \$2.00 otherwise. The price to mail subscribers has been changed to \$2.00 a year, the old price being \$1.50 for six months; \$1.25 for three months.

Special attention will be given to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, nothing but the most reliable and interesting news.

RATES OF ADVERTISING.
A liberal scale of prices for advertisements is made as arranged as follows:

Cards, all lines or under, 6 months, \$5.00
do do do 12 months, 10.00
Half square, 6 months, 12.00
do do do 12 months, 20.00
One square, 6 months, 20.00
do do do 12 months, 35.00
Two squares, 6 months, 30.00
do do do 12 months, 50.00
Three squares, 6 months, 40.00
do do do 12 months, 65.00
Four squares, 6 months, 50.00
do do do 12 months, 80.00
Notices of Birth, 50.00
do do do 100.00
do do do 200.00
do do do 300.00
do do do 400.00
do do do 500.00
do do do 600.00
do do do 700.00
do do do 800.00
do do do 900.00
do do do 1000.00

Special announcements can be made in the last column of the Daily, in the same type as local items, at fifteen cents per line.

Advertisements for any space not less than half a square, can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 2.50 per line for first insertion, and two cents for each additional insertion.

THE "WEEKLY INTELLIGENCER," is published every Friday morning at \$1.50 per annum in advance. If not paid at the time of subscription, \$2.00 will invariably be charged.

RATES OF ADVERTISING.
Six lines and under first insertion, 10.00
Each subsequent insertion, 5.00
Above six lines (per line), first insertion, 0.12
Each subsequent insertion, per line, 0.02
A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 10 o'clock on Thursday, to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

AGRICULTURAL.

Comfort of Farm Stock.

Does the average farmer realize the real import of this one word, comfort, as applied to the various animals of the farm, and especially that most useful of all others, the cow? Is there forethought to keep them comfortable during the cold and storms of a rigorous winter, when they depend upon him for their food and shelter? The animal which is of the greatest profit to its owner, which increases in bulk or gives the most milk or does the most work, is that one of easy disposition and comfortable circumstances. The profit and interest of all farmstock depend more upon the comfort of the animal than upon the expenditure by studying to promote the comfort of the animal. There are a variety of ways in which this may be done to the economy of our own profit. The following hints may serve as a guide to others.

First in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed. The animal which is fed at irregular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Second in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Third in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Fourth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Fifth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Sixth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Seventh in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Eighth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Ninth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Tenth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Eleventh in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Twelfth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Thirteenth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Fourteenth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Fifteenth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Sixteenth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Seventeenth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Eighteenth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Nineteenth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Twentieth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Twenty-first in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Twenty-second in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Twenty-third in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Twenty-fourth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Twenty-fifth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

Twenty-sixth in the list I would place regularity in everything, especially in feeding and watering. When stock are fed at irregular intervals, they consume more, with less profit to themselves and less comfort to the owner. The animal which is fed at regular intervals, and which is fed at the proper time, and which is fed with a supply, and a constant uneasiness in the result. When there is a regularity in feeding, and regularity and punctuality are strictly observed, the animal's appetite is improved, and the food is taken with a relish, and when eaten the stock are under no anxiety to feed.

FALL
AND
WINTER

STEAM TO LIVERPOOL.
Londonderry and Glasgow.

THE first-class Clyde built iron steamships of the Allan line, (carrying the Canadian and United States Mails) will be despatched from Liverpool, as follows: For Liverpool or Glasgow, calling at Loch Foyle (for Derry),

Creston, 10th Jan.
Dumfries, 12th Jan.
Sarnia, 14th Jan.
Sarnia, 16th Jan.
Sarnia, 18th Jan.

RATES OF PASSAGE FROM BELLEVILLE:
Special reduction in rates of passage during winter months, as follows: The Grand Junction Station.

From Belleville via Quebec to Liverpool or Londonderry—Cabin from \$75 to \$90 00, according to position of sleeping cabin.

Storage, which includes a plentiful supply of well cooked provisions, served by the ship's stewards, \$30 00 on receipt of the bill.

Return tickets from Belleville to Liverpool or Londonderry and back to Belleville \$80 00. The last train, with the Canadian Mail, leaves Toronto every Friday morning at 5:30 P.M., and arrives at Belleville at 10:30 P.M.

An experienced Surgeon accompanies each vessel.

Persons wishing to send their friends can obtain passage certificates at reduced rates from England, Ireland or Scotland, to any railway station in Canada or the United States. (When tickets are not used the amount is returned in a small deduction.)

Parties in Canada, sending for their friends effect a saving of about \$7 by getting prepaid certificates in this country and sending them home instead of the money.

Storage from Liverpool, Londonderry, or Glasgow, including Railway fare through to Belleville \$9.

For through tickets and every information apply to
U. E. THOMPSON,
Agent Allan Line,
Canadian Express Office,
January, 1876 Belleville.

SMOKERS!
MYRTLE NAVY TOBACCO:

STEAM TO LIVERPOOL.
Londonderry and Glasgow.

THE first-class Clyde built iron steamships of the Allan line, (carrying the Canadian and United States Mails) will be despatched from Liverpool, as follows: For Liverpool or Glasgow, calling at Loch Foyle (for Derry),

Creston, 10th Jan.
Dumfries, 12th Jan.
Sarnia, 14th Jan.
Sarnia, 16th Jan.
Sarnia, 18th Jan.

RATES OF PASSAGE FROM BELLEVILLE:
Special reduction in rates of passage during winter months, as follows: The Grand Junction Station.

From Belleville via Quebec to Liverpool or Londonderry—Cabin from \$75 to \$90 00, according to position of sleeping cabin.

Storage, which includes a plentiful supply of well cooked provisions, served by the ship's stewards, \$30 00 on receipt of the bill.

Return tickets from Belleville to Liverpool or Londonderry and back to Belleville \$80 00. The last train, with the Canadian Mail, leaves Toronto every Friday morning at 5:30 P.M., and arrives at Belleville at 10:30 P.M.

An experienced Surgeon accompanies each vessel.

Persons wishing to send their friends can obtain passage certificates at reduced rates from England, Ireland or Scotland, to any railway station in Canada or the United States. (When tickets are not used the amount is returned in a small deduction.)

Parties in Canada, sending for their friends effect a saving of about \$7 by getting prepaid certificates in this country and sending them home instead of the money.

Storage from Liverpool, Londonderry, or Glasgow, including Railway fare through to Belleville \$9.

For through tickets and every information apply to

ALBION HOTEL

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.
HAS for twenty years past been the favorite resort of the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial center of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of the City of Montreal and Mount Royal on the right. The Hotel is furnished in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest hotels in the Dominion, having ample accommodation for 600 guests, while kept in first-class style, the charges will be moderate. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

CLUB RATES.
Three Copies, per annum, \$ 5
Five Copies, " " " 8
Ten Copies, " " " 15
Twenty Copies, " " " 25

An extra copy will be sent to every club of ten or more.

Advertisements to clubs received at club rates. These rates make the WEEKLY HERALD the most economical advertising medium in the country. Terms cash in advance. Money sent by mail will be at the risk of the sender.

The general part of the WEEKLY HERALD will be appropriated to Agriculture, Horticulture, Poultry, and the management of domestic animals. Particular attention will be paid also to Reports of the Market.

The aim will be to make the WEEKLY HERALD superior to any other agricultural and daily newspaper in the country. Every number of the WEEKLY HERALD will contain the latest and most important news by telegraph from all parts of the world up to the hour of publication.

During the session of Congress the WEEKLY HERALD will contain a summary of the proceedings and the latest news by telegraph from Washington, Portland, Congress, Philadelphia, and Springfield. It will also contain: Obituary Notices, Varieties, Amusements, Editorial Articles on the progress of the day, a review of the Cattle and Dry Goods Markets, Financial and Commercial Intelligence and accounts of all the important and interesting events of the week.

The price of subscription, whenever payable in advance, should be transmitted by Post Office Order. It is the safest mode of transmitting money by mail.

At the Post Offices in the country where Post Office Orders cannot be obtained, money may be remitted in Registered Letters. Advertisements, to a limited number, will be inserted in the WEEKLY HERALD.

PROPERTY FOR SALE.

A Puzzled Dutchman Made Glad.

A Dutchman once heard a sermon by a

preacher who did not believe in immortality

for baptizing. In his preaching he endeavored

to explain this proposition by saying, "I am

saying that it is a very good thing to be

baptized, but I do not know whether it will

do you any good or not." The Dutchman

thought of this for some time, and then he

said to himself, "I will go to the church and

be baptized, and then I will see whether it

does me any good or not." He went to the

church and was baptized. He then went home

and thought of this for some time, and then

he said to himself, "I will go to the church

and be baptized again, and then I will see

whether it does me any good or not." He

went to the church and was baptized again.

He then went home and thought of this

for some time, and then he said to himself,

"I will go to the church and be baptized

a third time, and then I will see whether

it does me any good or not." He went to

the church and was baptized a third time.

TENEMENT HOUSES.—The relation between dwellings and the morality of those who dwell in them constitute an important part in recent statistics of crime and the principles of the law. Dr. K. H. Harris, in a recent report, stated that it had been ascertained that "tenement houses were the birthplace of nearly all the youthful crimes of large cities, and that any improvement of these houses would be a sure to be followed by a decrease of crime in them. But he added, that in New York there was a policy which was powerful to look after the improvement of the wretched tenements. He offered to take the Assembly Committee out to see if the "demon of crime, infamy, and death," which could not be kept clean, where thieves grow up in the atmosphere, and in which the children must become criminals. The Assembly Committee, Dr. Harris was not new to reformers, philanthropists, sanitarians, newspaper reporters, or the Police Department, but they were received with astonishment by some members of the Assembly Committee. In fact, the largest city of Scotland, a noteworthy change has been wrought, within recent times, in the physical and moral condition of some of the tenement quarters. Since the sanitary improvement of the city during the last seven years, the criminal arrests have decreased about one-third, and the arrests for petty larceny have decreased three-fourths.

WE DON'T BELIEVE IN

But we do Believe

In putting LOTS OF FURS around Ladies' hands and necks.

In addition to our stock of Furs, we now have ALTER AND REPAIR all kinds of Fur.

W. & J. W. JOHNSON.

Established 1858.

OYSTERS! OYSTERS! OYSTERS!

CASH PRICES.

25c. per Can over Counter. Fractional advance on cash for jobs.

This brand of Oysters, for purity of flavor and quality in the shell, is unequalled by any I have offered to the public, and I believe they are the best in the market. In adding for a dozen of oysters, I feel confident I can give satisfaction.

BREAD, BREAD.

The greatest care is taken in producing a pure, sweet, and well baked loaf, from the best flour that can be bought.

Muffins, Crumpets, Scones, &c.

These city delicacies can be had daily at 8 p.m. just in time for tea. A thoroughly competent person is engaged on this line, and customers may rely on a good article.

HOT TEA AND COFFEE. Oysters in the different styles, the best of the Strait, &c. Served in the Luncheon room during the usual hours. Lager Beer, fresh from the well.

English Hot Ale—1000 in drawing an exceedingly fine article.

P. H. HANBLY.

of Front and Market Streets, Belle
W. A. SHEPARD, Manager.

BERNETT'S FLAVORING EXTRACTS.—*The utility of these extracts consists in their purity and great strength. They are wanted free from the poisonous oils and acids which enter into the composition of many of the factitious fruit flavors now in the market. They are not only true to their names, but are prepared from fruits of the best quality. They are so highly concentrated that a comparatively small quantity only need be used.*

cent. The *Times* calls for investigation.

74

THE WEEKLY SUN, which has attained a circulation of over eighty thousand copies, already has its readers in every State, and Territory, and we trust that the year 1878 will find their numbers doubling. It will continue to be a thorough newspaper. All the general news of the day will be found in it, condensed when unimportant, and amplified when of moment; and always, we trust, interesting to its aim, interesting and instructive manner.

It is our aim to make the WEEKLY SUN the best newspaper in the country, and we shall continue to give in it its columns a large amount of miscellaneous reading, such as stories, tales, poems, scientific intelligence and agricultural information, for which we are not able to make room in our daily edition. The agricultural department especially is one of its prominent features. The farmers are also regularly reported in its columns; and so are the markets of every kind.

The WEEKLY SUN, which publishes five-six broad sheets, is only \$1.20 a year, postage prepaid. As a rule, price largely rarely made from this paper, no discount can be made from the rate to clubs, agents, Postmasters or sayings.

The DAILY SUN, a large four-page newspaper of twenty-eight columns, gives all the news for two cents a copy. It is published postage prepaid, six a month or \$1.50 per year.

SUBSIDY edition extra, at \$1.00 per year. We have no travelling agents.

Address,
"THE SUN,"
New York City.

SATURDAY, JANUARY 29, 1876.

Town and Vicinity.

MEETING TO-MORROW.—"Daniel's Band" will hold a meeting to-morrow afternoon at 4 o'clock and also every night next week at 8 o'clock in their room over Mr. Nathan Jones Store.

CROWDING THE SEASON.—Messrs. Goldsmith & Devereux have just opened cases of new straw hats and caps at greatly reduced prices from last year.

LIBERAL CONSERVATIVE ASSOCIATION.—The annual meeting of the Bay of Quinte Liberal-Conservative Association, for the election of officers, is to be held in the Hall over Messrs. Munn & Co. on Thursday next, Feb. 3rd. We hope to see a numerous attendance.

"OUR NEW DOMINION"—Rev. Dr. Joffe will deliver a lecture on the above subject in the Town Hall on Monday evening. The reputation of the Rev. lecturer is so well established, and his subject so popular, that we have no doubt that no doubt be attracted. Proceeds in aid of the West Belleville Methodist Church.

PASSED.—The Bill to legalize By-Law No. 333 of the Town of Belleville, to assist by way of bonus the Belleville and North Hastings Railway and Smelting Works at this town has passed the Legislature, and now only awaits the assent of the Lieutenant-Governor in order to become the law of the land.

G. D. & W. Goldsmith & Devereux call attention to Messrs. Goldsmith & Devereux's advertisement, which will be found in another column. We have perfect confidence in recommending them to the public. d1w

ARTISTIC.—An excellent portrait in oil of Mr. Ockerman, Collector of Taxes, adorns the window of Van Norman's book store. The portrait, which is by Windyato, of Toronto, is so strikingly natural and so lifelike, that it is not surprising that on first seeing it, he was so impressed with its likeness to the original that he felt like going into Van Norman's to pay his taxes to the "counterfeit presentation" of the Collector.

A GOOD MOVE.—The Royal Canadian Mounted Police, who have been practising continuing open for the transaction of business until 3 o'clock on Saturday afternoon. This movement will be decidedly popular amongst business men, for whose convenience it has been made, as there is no day in the week on which business on Thursday is so much needed as on Saturday. The breaking up of the old established custom of closing at 1 o'clock on Saturday deprives the clerk of his accustomed half holiday, but we feel assured that the business men would be well satisfied to see the young men compensated for this loss by being given a weekly half holiday on some less busy day, say Tuesday or Wednesday. Mr. Young is entitled to credit for his disinterestedness in meeting the wants of the community in this measure, which is a reform—a movement in which we have no doubt the other banking institutions which have agencies in this town will join at an early date.

GRAND CONCERT.—Our readers who are usually inclined to welcome the announcements of the Artistic Association, will be glad to hear that the Metropolitan Hall on Monday evening next, Madame Godard is one of the most eminent pianists of the time, ranking with Van Halen, Rubenstein, and other masters of the instrument. It is not rarely that the people of Belleville are accorded an opportunity of listening to the performance of artists in any of the musical professions of such high standing as Madame Godard, and the opportunity will do much to largely take advantage of. The company comprises Miss Adelaide Randall, vocalist; Mr. Mark Taylor, pianist; Mr. J. H. Kiefer, violinist; and Herr Semmler, organist. Testimony of the ability of the performers is obtainable from numerous sources, and we are sure that the concert of the Metropolitan Hall of the 25th, as being one of the most lately expressed opinions on the subject: "Miss Randall possesses a sweet and flexible, and a powerful mezzo-soprano voice, which she uses with judgment and considerable effect; but neither she nor Mr. L. Melbourne, who has a light but cultivated baritone voice, made much impression upon the audience. Mr. Kiefer is a young violinist of promise, but at present is by no means in the front rank of soloists. He was encouragingly received, and obtained a fair share of applause. Madame Godard was very warmly received. The first piece which she magnificently executed was Beethoven's 'Sonata Op. 20, Andante Variations, Minuet and Trio. From these she passed to the 'Sonata Op. 10, No. 3, in G major, which she executed with great skill and feeling. The first piece which she magnificently executed was Beethoven's 'Sonata Op. 20, Andante Variations, Minuet and Trio. From these she passed to the 'Sonata Op. 10, No. 3, in G major, which she executed with great skill and feeling. The first piece which she magnificently executed was Beethoven's 'Sonata Op. 20, Andante Variations, Minuet and Trio. From these she passed to the 'Sonata Op. 10, No. 3, in G major, which she executed with great skill and feeling.

Variations on the 'Harmosonic Blacksmith,' Handel, and 'Scott's Fantasia,' by Jules de la Motte, which he played with exquisite style anywhere, and the assembled throng received them with emotions of wonder and delight. Tickets can be had at Lister's Music store.

POLICE COURT.—Only one tramp stood the cold last night, and there were no cases for trial to-day.

M. E. CROUCH.—Rev. J. B. Jaques, D.D., will preach in the M. E. Church to-morrow, at 8:30 o'clock p.m.

CRUELTY.—St. Mary's Guiting Club in playing for the Governor-General's medal, lost to the Montreal team, Ottawa only made 3 goals.

THE NEW DOMINION.—Rev. Dr. Joffe will deliver a lecture on the above subject in the Town Hall on Monday evening. The reputation of the Rev. lecturer is so well established, and his subject so popular, that we have no doubt that no doubt be attracted. Proceeds in aid of the West Belleville Methodist Church.

SPARKING KERRITON.—The "manly art of self-defence" was audibly demonstrated last night by a boxer named McDonald, assisted by numerous local amateurs, some of whom had tolerably sharp sets.

BEAUFORT COULING CLUB.—There will be a meeting of the members of the Club, at the River Hotel, on Monday evening at 7:30 p.m., to select players to play the Montreal Cavalier Club for the R. C. Medal. A full attendance is requested.

THE MARKET.—There was a large attendance on the market to-day, despite the muddy roads, and prices ranged higher than last week, with the exception of wheat, which was lower. The market for grain was as follows: Wheat, 100 bushels, \$1.10; Rye, 100 bushels, \$1.00; Oats, 100 bushels, \$0.80; Barley, 100 bushels, \$0.90; Corn, 100 bushels, \$0.70; Potatoes, 100 bushels, \$0.60; Apples, 100 bushels, \$0.50; Butter, 100 lbs., \$1.20; Eggs, 100 doz., \$1.00; Lard, 100 lbs., \$0.80; Tallow, 100 lbs., \$0.70; Hides, 100 lbs., \$0.60; Wool, 100 lbs., \$0.50; Flax, 100 lbs., \$0.40; Hemp, 100 lbs., \$0.30; Linseed, 100 lbs., \$0.20; Castor Oil, 100 lbs., \$0.10; Rosin, 100 lbs., \$0.05; Turpentine, 100 lbs., \$0.05; Sassafras, 100 lbs., \$0.05; Cloves, 100 lbs., \$0.05; Nutmegs, 100 lbs., \$0.05; THE MODEL FARM.

The report of operations in the Ontario

School of Agriculture and Experimentation

for the twelve months ending Nov. 30,

1875, has been published. From it we

learn that the winter term of the institution

opened with 28 pupils, none of whom

residents of this County. Lectures on the

subjects of Chemistry, Physiology, Botany,

Zoology, Book-keeping, Manure, Horticulture,

the Anatomy and Physiology of

Animals, and Agriculture, were given

in and out of the classes there were daily

oral and written examinations.

The Spring term opened with 32 pupils,

of whom 15 were from Hastings, and the same

course of instruction was continued, except

the lectures in Horticulture. Ten of the

old students remained. In the summer,

classroom instruction was discontinued,

the students being employed in the various

departments of the farm, on which the departments of

instruction are four in number, namely, the

Field, Live Stock, Horticulture, and Mechanical.

The Live Stock, consisting of 30 head of

fattening and 20 of store cattle; 80 pairs of

and 25 breeding sheep, and 6 fattening

hens, afforded ample means of education

in stock raising and feeding, as well as

the ordinary course of treatment of the

common diseases of animals. Students

were in attendance at the monthly stock

fairs at Guilford, and were instructed in the

choosing and handling of sheep and the

sowing of cattle.

In the Horticultural Department the

students were instructed in the propagation

and forcing of plants; also in the construction

of rustic work; the construction of hot

beds; grafting, transplanting, culture of

different kinds of garden plants; and how

best to get rid of destructive insects.

During the winter the students were

taught in the Mechanical Department how

to handle every species of carpenter's tools,

and the preparing of paints; and in the

summer they were practically instructed in

the making of gates, hurdles and fences of

various descriptions.

The yield of the 276 acres placed under

cultivation, was as follows:

Acres. Bushels.

Barley..... 56 2,200

Wheat..... 31 1,200

Oats..... 42 1,800

Potatoes..... 4 150

Carrots..... 14 200

Turnips..... 23 1,200

Forty acres were placed under hay, 20

acres under pasture, and 22 acres were sown

with clover crops.

As the soil is of good quality, and the

season about an average one, the crop re-

turn is not very satisfactory, though in the

kitchen garden and horticultural depart-

ment there was a fair yield.

The cost of maintenance for the period

covered by the report was \$12,720, or

rather below the amount estimated by the

Government, and the estimate for the

maintenance of the institution for 1876, is

\$18,616. Last year, however, there was

expended on capital account \$11,338, and

the estimate for the same account this year

is \$25,000, for the purpose of stock im-

plements, etc., and the erection of buildings.

Canada at the Centennial.

The Ottawa Free Press of the 29th says:

"The Canadian Centennial Commissioners

who have been in session here during the

past week, brought their labors to a close

yesterday. We learn from the Secretary that

the United States Commissioners have con-

sented to grant additional space for the dis-

play of Canadian lumber, as represented by

the Lumbermen's Association. Rooms will

now be allowed for 10,000 ft. of each kind

of lumber. New Brunswick will contribute

a trophy consisting of a column of polished

THE CABINET.

If rumor speaks truly, there is to be

another important change in the Canadian

Cabinet. Mr. Geo. A. Minto, Minister of

Internal Revenue, is reported to have resigned,

concerning which event the *Mail's* Montreal

correspondent, telegraphed on the 29th

inst. "The source of the rumor is through

which Mr. Geo. A. Minto has left him in

such a feeble condition that he has ten-

dered his resignation and it has been ac-

cepted." This event, however, was antici-

pated. For some time past, Mr. Lafamme

has been carrying in his pocket his appoint-

ment to the office as Mr. Geo. A. Minto's

successor. Mr. Lafamme would in all prob-

ability not be long in coming to the office,

not daring to contact his own country

Jacques Cartier, it having been

carried by the Conservatives in the Local

election last year. The Toronto law examina-

tions will be held this—February 1st and 2nd—

inst. The Hon. Alexander Mackenzie, Minis-

ter of the Interior, has been appointed the

Governor of the North-West Territories, in

place of Sir John A. Macdonald. The Hon.

A Horrible Murder.

The Victim's Body Cut in Pieces

and the Head Found on the

Street.

New York, Jan. 30.

Yesterday afternoon a resident of Green

Island, N. Y., the head of a man was found

dead, severed from the body lying be-

tween a pile of lumber and a fence. He was

found by the police, and the head, which

was severed from the body, was found

about twenty-four hours, was con-

veyed to the station house, where it was

examined by a coroner's jury. The man

was missing since Thursday night. Simons

was a laborer, and worked in a

lumber yard in Williamsburg. He was

detected by the police, and the head, which

was severed from the body, was found

about twenty-four hours, was con-

veyed to the station house, where it was

examined by a coroner's jury. The man

was missing since Thursday night. Simons

was a laborer, and worked in a

lumber yard in Williamsburg. He was

detected by the police, and the

Daily Intelligencer.
Anecdotes of Weddings.

The manner of tendering the fee, of course, varies according to the amount of grace and self-possession of the groom.

The growing tendency, in America at least, to regard it as a civil contract, has given rise to our curious method of laws on the subject.

Another question which perplexes some clergymen, while to others it presents no difficulties, is presented when persons of different races apply for marriage.

The custom of kissing the bride at a wedding is of great antiquity, and while among the most refined classes it has fallen into disuse, it is still insisted on by many people with great rigor.

Who is determined to make a 'BIG PUSH' During the Holidays and sell VERY CHEAP FOR CASH.

Unquestionably the best sustained work of the kind in the World.

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it not only cures the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the Lungs, soothes the inflamed membrane, and thus removes the cause of the complaint.

ALBION HOTEL,
MCGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.
For twenty years past has been the favorite resort of the general travelling public in the United States, as well as in Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial center of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is fitted throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest hotels in the Dominion, having ample accommodations for 600 guests, while kept in first-class style, the charges will be moderate. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.
